Dr. Joshua Lederberg  
Department of Genetics  
University of Wisconsin  
Madison 6, Wisconsin

Dear Dr. Lederberg:

I hope that you can get your culture of Y-87 straightened out. We have been having difficulty with that also.

For the next ~~two months~~ Haas will be in Cold Springs Harbor taking the phage course with Dr. Adams. When he returns we can write you and ask for additional stocks. For the time being, that phase of our work will not be carried on.

We will try to keep you informed of any interesting developments when we get to working again.

Yours sincerely,

*Wilson S. Stone*

Wilson S. Stone  
Professor of Zoology
